Electronic File Transfer Specifications

Send to: paart@national-imprint.com

At NIC we accept files in the following programs:
Quark® Adobe InDesign®
Adobe Illustrator® Adobe Photoshop®

NIC is up-to-date on all current versions of the software programs listed above.

When sending artwork, please include your Dealer and/or Purchase Order number with your artwork file, and indicate on your Purchase Order that artwork has been transmitted.

All artwork should be created in one of the above programs. Artwork for logos should be sent as VECTOR images and not RASTER art. Vector art allows NIC to manipulate artwork if necessary. RASTER images should only be sent if no other form of art is available and have a resolution of 300 dpi or higher. RASTER images sent for 2-color art will not be accepted if any of the colors are touching or screened. NIC accepts RASTER images for 4-color process art provided they are 300 dpi or higher.

PDF Files for Art

Please note that Portable Document Format files, or PDFs, are typically used as a proofing tool for viewing electronic documents on screen. A PDF is NOT an original file format. If you do supply a PDF for artwork, please remember the following:

1. Do not put a PASSWORD on the file.
2. If multiple colors – provide as a composite and a color-separated file along with cropmarks. If you are providing separated art, each color must be supplied as a black/gray scale.
3. If logos are in your artwork, we do advise sending the original vector file format for the logo as well.
4. Fonts should be converted to outlines. This ensures your order will not have a substituted font.

Microsoft Word Files

In general, NIC DOES NOT ACCEPT Word files. Orders that are black ink only with no logo may be accepted.

Fonts Within Art

To ensure your fonts are correct, NIC encourages you to have your text converted to outlines. If you are unable to convert your text to outlines and an exact match is not an issue, please indicate on your order that font substitution is acceptable.

Bleeds and Cropmarks

If your art has bleeds, NIC requires an extra ⅛" extended past the final document size. All documents with bleeds should also have crop marks to ensure proper positioning.

Executive Style® Envelopes

NIC's executive envelopes are known for providing outstanding quality, efficiency and uptime performance for your customers with inserting applications and extracting equipment worldwide.

Executive Style® envelopes have a lightweight design, using less paper per square inch than any other envelope design. This is important for your customers who pay by the ounce under first-class automated rate discounts from USPS. In addition, the high-back panels meet together at the throat, secured by extra-wide strips of seam adhesive. This combination offers strength and durability to the envelopes for high-speed inserting and mail processing.

Tint is available on select executive envelopes in reflex blue.

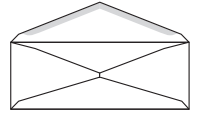

The Executive DC® "Die-Cut" envelope was developed for the new, higher cycle speed inserters that require even tighter material tolerances. You will note the difference in the die-cut flap.

Please note! These stocks may have longer turn times depending on vendor availability.

Business Stationery

NIC is proud to offer three different types of printing for your customers with stationery needs: Flat Printing, Thermographed and LaserSafe™. Flat Printing, or regular litho printing, is ink on paper. Thermography and LaserSafe™ are what most refer to as raised printing, which is achieved after a powder/ink is heated. This process is available on the front side only.

If your customer is not imprinting or running their stationery through any form of laser printer or printer generating heat, order from NIC's Thermographed selection. If your customer needs to imprint or run their stationery through any form of printer that generates heat, please choose LaserSafe™, a special powder/ink formulated to withstand that additional process.

If you have any questions, please call our Customer Service department. They will be happy to help you choose the best option for your customer.

NOTE: Inks for the above must be the same ink(s) as printed on the face, otherwise additional applicable ink charges need to be added. Also, please note under 2-color pricing the additional charge for Yellow Ink, which may apply to 3- and 4-color spot. It does NOT apply to 4-color process.

Fulfillment Schedule

FREE Delivery to ALL Continental U.S. States

NIC provides FREE delivery on quantities of 5M or less for stock items or where otherwise noted. Quantities greater than 5M are shipped FOB plant. For shipping outside the continental states, call Customer Service for pricing. In addition, UPS/FedEx have instituted a **redelivery charge** on shipments in which an incorrect delivery address is provided. If you provide an incorrect delivery address or if additional **residential delivery charges** apply, these charges will be billed to you on a subsequent invoice. All shipments, depending on order size and destination, are routed “Best Way.” Shipments via “Common Carrier” may require **inside delivery**, which carries an additional charge. These charges will be billed to you on a subsequent invoice. Inside delivery must be noted on your purchase order to ensure correct delivery documentation or an additional charge may apply.

Rush Fulfillment Program

We know how important your customer’s rush order is! Our goal is to deliver exactly as promised. Rush orders must be received by 1:00 PM ET, be complete and without discrepancies. Rush charges are generally \$75 per item. For large projects, rush charges may exceed \$75. During busy times, we may not be able to accept rush orders in order to maintain our standard turnaround times. We encourage you to contact Customer Service to verify the available turnaround time, delivery options and rush charges before submitting your order.

Artwork

In the past, some added services carried additional charges. NIC is pleased to offer many of those now FREE of charge. Please see the complete list below. We accept original B&W artboards, disks or electronic files. Please remember, bad samples will reproduce poorly. Facsimiles, photocopies, hand-drawn sketches or clippings are NOT acceptable. Negatives are required for thin-line art, screen tints, halftones/duotones and 2-color work.

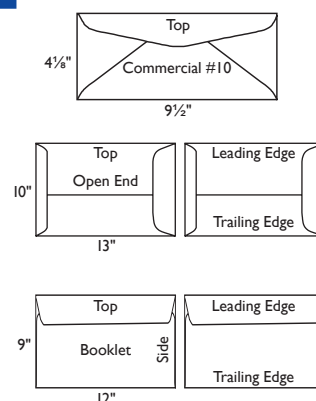

FREE Artwork Services:

- Typesetting: NIC has an Adobe Typestyle Library consisting of over 1,000 typestyles (up to 20 lines of copy - a \$10-\$50 value!)
- Includes minor touch-up/corrections to art (allow an additional two business days)
- Artwork/art files: preflighting art files, shooting CRC or samples
- Customer alterations: minor touch-up, adding to, deleting from and/or adjusting artwork
- Reverses or knockouts (up to 20 square inches)
- Vertical corner card, indicia, lower left/right and bottom print
- Screening (available in 10% increments)
- Borders
- Reduction or enlargement

Artwork Submission Guidelines for 3- to 4-Color Orders

Gripper Margins - For Close Registration

Description	Minimum Measurement	Measurement Taken From
All Commercial Sizes	$\frac{13}{16}$ "	Top of Envelope
All 6½" x 11" Letterheads	$\frac{13}{16}$ "	11" Side
Open Ends thru 9" x 12"	$\frac{13}{16}$ "	Side of Envelope
Booklets thru 9" x 12"	$\frac{13}{16}$ "	Top of Envelope
Open Ends thru 9½" x 12½" and 9" x 12"	$\frac{1}{2}$ "	Leading Edge
(As critical as gripper)	1½"	Trailing Edge
9½" x 12½" Booklets	$\frac{1}{2}$ " top	Top of Booklet
10" x 13" Booklets	1½" bottom	Bottom of Booklet
Open Ends larger than 10" x 13"	—	Cannot Run on 4-color Press

Concerns: Close registration is not a problem for any of the above envelopes, open end or letterhead sizes that can run on the 4-color jet presses as long as the appropriate gripper margins are observed. 9½" x 12½" open ends and booklets and 10" x 13" open ends and booklets that do not meet the gripper and margin requirements listed or 11½" x 14½" and larger open ends may still be printed 3-color spot on a standard 6", 2-color jet press subject to the first two colors having a 1/8" separation from the third color.

Copy Quality: Absolutely no laser-generated artwork that is under 1000 dpi (dots per inch) resolution will be accepted. Artwork should be top quality, color separated, exact size to print complete with registration marks. Pre-screened negatives or digital files must be supplied when imprint has a screen. A correct color sample or color key must be supplied, or we will prepare a proof for customer approval and add the applicable upcharge if the customer requests a press proof. If the order size is minimal and the stock is NOT custom manufactured, we may waive the necessity of a proof.

Artwork Storage Policy: Film, disks and samples will be kept on file for two years from the most recent order. Reorders older than two years may require artwork and/or samples with color separations and margins indicated.

- Heavy ink coverage, full-face or two-sided printing

Quantities greater than 5M ship FOB plant.

Trade Practices & Information

1. Credit & Payment Terms

Initial orders on new accounts are subject to credit approval. To expedite your first order include full pre-payment or we accept Discover, American Express, Visa and MasterCard. Also include your complete Dealer Application to ensure quick fulfillment of all future orders. Our payment terms are net 30 days. Please keep your account payments current. Late payments beyond 30 days will delay processing of your orders.

2. Pricing: Price Sheet

If there is a discrepancy between the National Imprint Corp. price list or quote and the dealer purchase order, the price list or quote will supercede. Although every effort is made to ensure accuracy on pricing and merchandise specifications, an occasional pricing error may occur. National Imprint Corp. reserves the right to fulfill orders at correct prices or with correct merchandise. Occasionally an item may be discontinued by National Imprint Corp. or a paper mill.

Quotes: If you need more than three items quoted, please fax or email: paart@national-imprint.com. On quoted orders please refer to National Imprint Corp. quote number supplied on your Quotation Response Form. Discrepancies between quoted specifications and order specifications negates original quote. Variations require re quoting and updated turnaround schedule. Quoted prices are valid for 30 days. Special runs may result in 10 - 20% unders or overs. Your invoice will be adjusted accordingly.

3. Ordering

We will fill your Purchase Order as requested. All specifications must be carefully listed on your Purchase Order. If there is a variance between your Purchase Order and sample, National Imprint Corp. will always refer to Purchase Order and Standard Program Terms. Any omissions or discrepancies will delay the timely fulfillment of your Purchase Order. Any order received after 1:00 PM ET will be considered received the next business day. Faxed orders must include exact copy placement, color breaks and PMS numbers.

New Orders: To ensure accuracy, phone orders are not permitted. Ordering is easy by fax or email. Whether an order is faxed or emailed, please include all specifications, such as dimensions of merchandise, imprint placement, ink color, typestyle and punctuation. When faxing orders, please transmit on the "FINE" setting. Also, please include your account number.

Reorders: Phone orders are accepted on exact repeat orders only, valued at \$200.00 or less. Reorders must include the most recent corresponding sales order number and a faxed or emailed sample of the original printing to ensure the correct negatives are used. Please note ink separation, position of printing, ink colors, changes, etc. Refer to fax guidelines. We maintain production samples and negatives for two years.

Cancellations or Changes: \$10.00 if made prior to printing the product. Of course, orders completed cannot be cancelled or changed. Any change or addition to your order must be confirmed via fax or email before processing.

4. Inside Tint

Samples for standard inside tints are available upon request. Any special pattern or color requires a quoted price and delivery time.

5. US Postal Specifications

If artwork is supplied by the dealer, the dealer is responsible for conformity or non-conformity to US Postal specs. National Imprint Corp. will print according to dealer-supplied artwork or samples. Only when National Imprint Corp. develops the artwork will National Imprint Corp. accept responsibility for conformity to US Postal specs.

6. Industry Tolerances

ENVELOPE SIZE, WINDOW SIZE, WINDOW PLACEMENT OR PRINTING POSITION MAY VARY +/- 1/16".

Ink Colors: We do not guarantee an "exact" ink match because of the normal variations in manufacturers' ink, in PMS books and in ink color variations caused by paper stock.

Paper: We are not responsible for variations in color, finish, bursting strength or weight that are within the paper manufacturer's tolerances.

7. Laser Printing

All of our papers, with the exception of laid finish papers, are "laser friendly." They can be used in laser printers even though they are not classified as laser papers. Samples for testing are available free of charge. If you require a sheet that must perform in a laser printer and need a laid finish, we recommend Classic Laid Imaging, and this should be specified on your Purchase Order.

8. Storage Policy

Contact our quote department for storage, masters, subsequent imprinting and inventory reporting services. The following policy applies:

- Minimum storage quantities are 25M envelopes or letterheads.
- Minimum invoicing time frame is six months.
- Products held longer than six months will continue to be billed on a per-month basis until all stock is depleted.
- Shipping charges for product returned to the distributor or their customer will be invoiced to the distributor.
- Invoices will be generated on the 15th of each month for the previous month's inventory storage costs.
- Minimum monthly storage cost is \$17.50 per skid of stock inventory for quantities less than 25M.
